

## Calling All Women

*Make a Difference with Habitat for Humanity of Orange County's "Women Build"*

**P**rofessional women are known to be strong, confident, and empowered. Wouldn't you love to share those same qualities with a family who needs your help in Orange County? Habitat for Humanity of Orange County has just the activity for you. Why not build a home? Join our team of professional women who help fundraise and advocate for decent affordable homes, and actually build Habitat homes right here in Orange County.

Through Habitat's Women Build you can learn how to do simple repairs, meet and work with women from all over Orange County, and be a part of something that will change your life. All this while you offer a hand up – not a handout – to a local family working to achieve the American Dream of homeownership.

Women Build was started in the 1980s by Linda Fuller, co-founder of Habitat for Humanity International, to provide an opportunity for women to learn construction in a supportive environment. Women Build empowers women as they address the problem of substandard housing, and changes the lives of the Women Build volunteers and families. Fuller's dream of having Habitat homes built by women has spread worldwide, and over the years Women Build volunteers have built more than 1,650 homes. Local Women Build volunteers have built five homes in Orange County, and are forming teams to build homes in San Juan Capistrano and Fullerton. Women Build is just missing one thing and that is YOU! Get involved with Orange County's Women Build today, and you'll change a life tomorrow.
